# POUCHMARK™

DIRECT-TO-POUCH VARIABLE PRINTING

## ▶ **FLOW™** CONTINUOUS POUCH-PRINTING SYSTEMS

### **FLOW 2000**

Our blazing fast TTO-mounted friction-feeder/conveyor system, the FLOW 2000 prints a 7-inch-tall stack of flat pouches (or cards) at up to 180 packs per minute. And not just simple text or date codes – 1D, 2D and GS1 barcodes; logos and icons; incremental and database-fed variable codes...all at crisp and clear 300dpi resolution.

### **FLOW 3000**

Designed to meet the demands of multiple industries for an automatic feeding-printing system to print variable information directly to pre-made zippered and gusseted pouches, the FLOW 3000 is as close as you can get to a perfect solution. Print everything from nutrition panels, compliance data, production codes, logos, text and virtually any type of barcode directly onto pre-formed pouches, eliminating the need for pre-printed, hand- or machine-applied labels.

# ▶ **VERSA™**

## **MODULAR TABLE TOP TTO**

Now manufacturers and specialty retailers alike (coffee roasters, sweets shops, bakeries, etc.) can custom-print and brand their own bags, pouches and cards on-demand, without going to the expense and trouble of buying custom-printed labels to apply by hand.

Just choose a template from the touchscreen controller (made with the user-friendly Windows-based software included) and press the integrated foot pedal for hands-free, perfect custom printing every time! **Logos, product names, ingredients, barcodes, can all be designed into one template and printed at once.**

In addition, VERSA's modular design allows the user to raise the printer and rubber print pad above the base, in order to open and slide more difficult multi-layered zippered or gusseted bags over the pad for best print quality.

## **AVAILABLE MODELS**

**PERECT FOR POUCHES  
IN EVERY INDUSTRY**

- FRESH OR FROZEN FOODS
- MEAT OR POULTRY
- DRY FOODS & INGREDIENTS
- SEAFOOD
- DAIRY
- COFFEE
- SNACKS & CANDY
- BAKED GOODS
- PET FOOD
- MEDICAL DEVICES
- CANNABIS
- PERSONAL CARE

500iL	128mm (5.1") x 125mm (5")

# ProCode™ PROFESSIONAL

*PouchMark's full-featured coding design software, ProCode™ Professional, is included free-of-charge with every PouchMark® TTO System.*

Our feature-rich, user-friendly, **Windows®-based software** enables you to easily create everything you'll need in your package coding environment. From standard **expiration dates and lot codes**, to **linear and 2-dimensional barcodes**, to **high-resolution logos and graphics**, ProCode™ does it all.

*Although ProCode™ is a proprietary PouchMark® software program, multiple drivers and solutions are available to enable users to interface with their preferred coding and label design software.*

## A SUPERIOR LINE OF RIBBONS FOR TTO PRINTERS

### FLEX PREMIUM DURABLE WAX-RESIN RIBBON

The clear winner in its class, this premium "General Purpose" TTO ribbon is your high quality, cost-effective choice for traditional flexible packaging applications. Crisp text, codes and graphics with very good smudge and scratch resistance.

### FLEX ULTRA HIGH DURABILITY WAX-RESIN RIBBON

Remarkably versatile, FLEX™ ULTRA prints clear, dark images on most coated, uncoated and film substrates while providing added resistance to smudging, scratching and less friendly environments. Extra protection at an affordable price.

### FLEX SUPREME EXTREME DURABILITY RESIN RIBBON

When durability is critical, and exposure to heavy contact, solvents or harsh environments is of great concern, FLEX™ SUPREME is the answer. This special resin ink formulation provides a nearly indelible image on flexible packaging film, pharma grade pouches and synthetic labels.

Our Xtend™ anti-static back-coating maximizes the life of your printhead.

WITH A VARIETY OF COLOR RIBBON INKS TO CHOOSE FROM

**BUILT  
TO LAST.**

*PouchMark® brand Thermal Transfer Overprinters are so rugged and reliable, we back every sale with an unbeatable 18-Month Warranty. Our engineers insist on using only the highest-grade materials and components, and our vertical manufacturing protocol ensures the tightest compliance to specifications. The end result?*

**LESS DOWNTIME.**
